PROFESSIONAL SUMMARY

Principal Software Engineer and Cloud Architect with 15+ years of experience leading enterprise software development and cloud transformation projects. Combines hands-on engineering in Azure and .NET with solution architecture, technical strategy, and leadership of distributed teams. I bring a mix of technical depth, architectural vision, and people leadership.

CORE SKILLS

Cloud and architecture: Microsoft Azure, AWS, Google Cloud (GCP), cloud security, Infrastructure as Code (IaC), Terraform, Bicep, Microsoft Sentinel, Microsoft Defender.

Engineering and data: C#, .NET, ASP.NET MVC, REST APIs, React, TypeScript, Python, SQL Server, Azure Cosmos DB, Azure Functions, Azure Logic Apps, Microsoft Fabric.

Delivery and leadership: Azure DevOps, GitHub, CI/CD, Scrum, technical roadmaps, team mentoring, pre-sales scoping and estimation.

WORK EXPERIENCE

Southworks | Principal Software Engineer & Cloud Architect

03/2021 – present

- Lead solution architecture, technical strategy, and hands-on development; define roadmaps and engineering standards and mentor distributed teams of 8+ developers.
- Support pre-sales through scoping and estimation; conduct technical interviews and provide individual coaching.
- Last projects executed:
  - Microsoft: Developed the Private Capital Reporting Tool to consolidate multiple data sources for consistent analysis and business decision-making.
  - Deltatre: Built modular Serie A football widgets with Storybook, API integrations, and configurable layouts; migrated the Axis platform from AWS to a multi-cloud architecture on GCP and Azure.
  - Canary Speech: Strengthened Azure security to address HITRUST requirements using Defender, Sentinel, identity and access management (IAM), network protection, and business continuity and disaster recovery (BCDR).
  - NTT: Delivered IaC, security automation, and custom integrations using Microsoft Sentinel, playbooks, and connectors.
  - Avid: Developed video streaming and Microsoft Teams integrations, including a WebRTC player, single sign-on (SSO), backend APIs, and CI/CD pipelines.

Southworks | Lead Software Engineer
01/2019 – 03/2021

- Led the Services Team supporting Microsoft Email Orchestrator (MEO), which processed 100M+ emails monthly across 100+ Microsoft teams. Delivered new capabilities, service improvements, maintenance, and bug fixes.
- Designed scalable improvements to support reliability and compliance using Azure, C#, ASP.NET MVC, Entity Framework, SQL Server, REST APIs, Redis, and Azure Functions.

Southworks | Software Developer
05/2017 – 01/2019

- Worked as a vendor at Microsoft on an internal Azure-based service for customer email content and delivery, using C#, ASP.NET MVC, Entity Framework, SQL Server, JavaScript, jQuery, and WebJobs.

AXA Assistance | Technical Leader & Product Owner
05/2014 – 05/2017

- Directed application development across business units, coordinating vendors and internal teams to improve efficiency, security, and delivery.
- Managed the full project lifecycle, including budgets, milestones, deadlines, and compliance. Technologies included ASP.NET, SQL Server, and Visual Studio.

AXA Assistance | Lead Developer
09/2010 – 05/2014

- Led a team of 5+ developers, coordinating assignments and reviewing deliverables against quality standards and project requirements.
- Managed project budgets and timelines and reported progress, risks, and delivery challenges to stakeholders.

AXA Assistance | Senior .NET Developer
09/2010 – 09/2011

- Built and maintained enterprise applications with ASP.NET MVC, WCF, and SQL Server; improved modularity and testability through dependency injection and mentored junior developers.

Teracode | .NET Developer SSR
11/2009 – 09/2010

- Migrated an e-learning platform to Silverlight and .NET 4.0 to improve user experience and performance. Worked with WCF, LINQ, Entity Framework, and SQL Server in a Scrum team.

Fox Latin American Channel | .NET Developer SSR
03/2009 – 10/2009

- Developed and maintained high-traffic websites for Fox, FX UK, MundoFox, and Utilísima; implemented features and optimized backend services using C#, ASP.NET, SQL Server, and jQuery.

Inspección General de Justicia | .NET Developer
12/2007 – 03/2009

- Built web and desktop applications with multi-tier architectures using C#, VB.NET, ASP.NET, SQL Server, and MySQL.

Ente de Cooperación Técnica y Financiera del S.P.F | IT Support / .NET Developer
03/2005 – 06/2008

- Managed IT operations, web development, and system maintenance; provided technical consulting and hardware upgrades. Technologies included VB.NET and SQL Server.

CERTIFICATIONS

Microsoft Certified: DP-600 Fabric Analytics Engineer Associate | 2026

GH-300 - GitHub Copilot Associate Certification | 2026

EDUCATION

Postgraduate in Project Management (PMI) | Universidad Tecnológica Nacional | 2014

Systems Engineer | Universidad Abierta Interamericana | 2003 – 2008

Systems Analyst | Universidad Abierta Interamericana | 2003 – 2007

Secondary Education in Computing | Private Institute “PIO IX” | 1998 – 2002

LANGUAGES

Spanish: Native | English: Full professional proficiency
